Proposed Residential Development in the Heart Lake Area

Over the past few weeks, I have been contacted by many of my constituents in Brampton-Springdale in regards to their concerns over the proposed residential development in the Heart Lake area. As most of you are aware, plans have been announced to potentially construct 1400 residential units in the vicinity of Sandalwood Parkway and Conestoga Drive.

Many of you have expressed your concerns about the potential impact on the quality of life of Heart Lake area residents, especially in regards to increased traffic congestion, diminished property values, increased taxes, and greater demands on public services and infrastructure.

In addition, many of you have also voiced concerns about the impact on the environment. Of particular concern is the effect on the livelihood of the vibrant Etobicoke Creek Trail, which runs through the core of Heart Lake and remains a popular destination for wildlife and nature enthusiasts. As a strong advocate for protecting our environment, I share your apprehension regarding the prospective environmental impact of increased development in the Heart Lake area.

Though this particular issue falls under the jurisdiction of the Mayor and local City Councillors, I strongly believe that all elected officials should work together on behalf of Bramptonians to achieve positive results. It is in this spirit that I am here to support you in your initiatives, ranging from letters of support and petitions to phone calls and community meetings. The grassroots initiatives that have been undertaken in regards to this issue reflect the strong commitment of Heart Lake residents to our environment and our community. As your federal Member of Parliament, I commend your hard work and dedication.

I am committed to working with you to ensure a successful resolution of this issue.

Dr. Ruby Dhalla
Member of Parliament
Brampton-Springdale
